

ARAVINTH K

AI & Data Science Graduate | DevOps Practitioner | ML Engineer

aravinthk1504@gmail.com • +91 9566463895 • linkedin.com/in/aravinthk1504 • github.com/aravinthk1504 • Coimbatore, Tamil Nadu

PROFESSIONAL SUMMARY

Results-driven AI & Data Science graduate with hands-on experience in machine learning model development, NLP, computer vision, and DevOps automation. Proven ability to design and deploy CI/CD pipelines, containerize applications with Docker and Kubernetes, and build intelligent chatbots and predictive analytics solutions. Adept at bridging the gap between AI research and production deployment. Seeking an entry-level role as an ML Engineer, AI Engineer, or DevOps Engineer to deliver impactful, data-driven solutions at scale.

EDUCATION

B.Tech – Artificial Intelligence & Data Science Arjun College of Technology, Coimbatore CGPA: 7.2 / 10	2021 – 2024
Diploma – Electrical & Electronics Engineering P.S.R. Polytechnic College, Sivakasi CGPA: 8.5 / 10	2018 – 2021
Dr. V. Gengusamy Naidu Matriculation Higher Secondary School	2017 – 2018

INTERNSHIP EXPERIENCE

DevOps Engineer Intern <i>Cube N Square, Chennai</i>	Sep 2024 – Jan 2025
- Designed and maintained CI/CD pipelines using Jenkins, GitLab CI/CD, CircleCI, and Azure DevOps, reducing deployment time by automating build, test, and release workflows. - Containerized microservices using Docker; orchestrated deployments on Kubernetes with auto-scaling and load balancing for high-availability applications. - Managed source code versioning using Git across cross-functional teams, enforcing branching strategies and code review standards. - Monitored infrastructure health and set up alerting dashboards using Grafana and Splunk, improving incident detection and response time. - Gained exposure to Linux server administration, shell scripting, and automation of repetitive deployment tasks.	
AI Engineer Trainee <i>Digital Garage Pvt. Ltd., Coimbatore</i>	Mar 2024 – Aug 2024
- Developed, tested, and deployed machine learning models for predictive analytics in collaboration with senior engineers. - Designed and implemented CNNs and RNNs for image processing and sequence modelling tasks, achieving high accuracy through iterative debugging and hyperparameter tuning. - Applied NLP and computer vision techniques to build real-world AI solutions, including named entity recognition and object detection pipelines. - Conducted deep learning research and stochastic modelling for advanced data analysis projects. - Automated data preprocessing workflows using Python, reducing manual effort and improving model training efficiency.	

KEY PROJECTS

Sentiment Analysis using NLP

Python, NLTK, Scikit-learn

- Built an end-to-end sentiment analysis pipeline using NLP techniques including tokenization, stemming, lemmatization, and stop-word removal.
- Optimized model performance through hyperparameter tuning and cross-validation, achieving robust classification accuracy on real-world text datasets.

Solid Waste Classification using Transformer Neural Network

TensorFlow, Transformer, CV

- Developed a transformer-based neural network to classify solid waste into recyclable, organic, and hazardous categories.
- Collected and labelled image datasets; applied preprocessing and data augmentation for model robustness.
- Achieved strong accuracy and generalization using transfer learning and hyperparameter tuning.

Water Quality Management using Machine Learning

Python, scikit-learn, Random Forest

- Built a Random Forest classifier to assess and predict water quality/potability from sensor and chemical parameter data.
- Performed data cleaning, feature selection, and model evaluation to improve classification reliability.

TECHNICAL SKILLS

Languages: Python, R, SQL, Bash / Shell Scripting

AI / ML: Machine Learning, Deep Learning, NLP, Computer Vision, CNNs, RNNs, Scikit-learn, TensorFlow

DevOps & Cloud: Docker, Kubernetes, Jenkins, GitLab CI/CD, CircleCI, Azure DevOps, Git

Monitoring: Grafana, Splunk

Web & Databases: HTML, CSS, JavaScript, Django, MySQL

Data Tools: Pandas, NumPy, Matplotlib, Seaborn

Soft Skills: Team Leadership, Problem Solving, Project Management, Communication, Time Management
